# Acknowledgement of Country

---

Cardinia Shire Council recognises and values the Boonwurrung, Bunurong and Wurundjeri tribes as the original inhabitants of the land that makes up Cardinia Shire.

Cardinia Shire's name is derived from the Boonwurrung<sup>1</sup> or Wadawurrung word 'Kar-din-yarr', meaning 'look to the rising sun' or 'close to the sunrise'. Council's logo, which includes a motif of the rising sun, reflects this meaning.

Cardinia Shire Council acknowledges the right of Aboriginal peoples, and indeed all Australians, to live according to their values and customs, subject to the law.

Council is committed to developing and strengthening relationships through reconciliation. Council supports the reconciliation process, which promotes mutual respect and understanding of the Aboriginal peoples and of all ethnic groups and their history and culture in our community.

<sup>1</sup>There are a number of acknowledged spellings for Boonwurrung and these include Bunurong, Bunwurrung, Boonwerung, Bunurowrung, Boonoorong and Bururong. Cardinia Shire Council uses the spelling proposed by N'arweet Carolyn Briggs.

# Executive Summary

**The Active Cardinia Strategy aspires to create an active and healthy community where all residents have access to a diverse range of opportunities to participate in sport and active recreation.**

As one of Victoria's fastest growing municipalities, Cardinia Shire Council must plan for its sport and active recreation needs for the next 10 years to ensure residents are supported to lead active and healthy lives.

The Active Cardinia Strategy provides strategic direction to ensure communities have access to high-quality facilities and environments that support all types of physical activity.

The Strategy prioritises support for sporting clubs and associations, partnerships with state sporting associations and peak bodies, and collaboration with key stakeholders that influence the ways that we participate in sport and active recreation.

With Cardinia Shire's population forecast to grow by 42% between 2022 and 2032<sup>1</sup>, Council will continue to grow its provision of sport and active recreation facilities to service both new and existing communities.

With 42% of Cardinia Shire's adult population not currently meeting recommended physical activity requirements<sup>2</sup>, the need for environments and public spaces that support active lifestyles are becoming increasingly important.

Cardinia Shire is unique in structure, with a mix of population-dense urban areas, townships and rural areas. The varying characteristics of our communities require careful consideration to ensure planning meets both municipal, regional and local needs.

As we strive to reduce barriers to participation, engaging our community in the development and implementation of the Active Cardinia Strategy is a key priority and vital to its success.

Our vision is:

***Our community is empowered to participate.***

***We are active, engaged and connected.***

***We are resilient and strong.***

***Our physical and mental health is supported by a sustainable environment.***

***We embrace diversity.***

***We are an Active Cardinia.***

# About the Active Cardinia Strategy

**The Active Cardinia Strategy represents Cardinia Shire Council's commitment to increasing opportunities for participation in sport and active recreation across our communities.**

The Active Cardinia Strategy provides an evidence-based approach to planning for the future sport and active recreation needs of Cardinia Shire. The Strategy is guided by the analysis of relevant participation and population data, and incorporates direction from relevant Council, government and stakeholder strategies and plans.

The Active Cardinia Strategy is based on consultation and engagement with our community, sporting clubs, sporting organisations and other stakeholder groups.

The approach to the development of the Strategy tailored to address the differences in challenges and opportunities in the Growth Sub-region and Northern/Southern Sub-regions.

The Strategy establishes strategic priorities under four key pillars:

1. **Participation:** Increase participation in sport and active recreation, with a focus on reducing barriers for people that are less active
2. **Places:** Plan, develop and activate places that support communities to participate in sport and active recreation
3. **Promotion:** Promote opportunities to participate in sport and active recreation, and build awareness of the benefits of physical activity
4. **Partnerships:** Work with our partners to invest in infrastructure, deliver participation opportunities and develop the capability of our community

The Active Cardinia Strategy is supported by further documentation relating to data analysis and trends, facility provision, community engagement and implementation planning.

Progress against strategic priorities and recommendations from the Active Cardinia Strategy will be monitored through evaluation, the ongoing collection and collation of data, and engagement with our community.

# Cardinia Shire: A Snapshot

Cardinia Shire is located on Greater Melbourne’s south-east metropolitan boundary and is one of 10 fast-growing ‘Interface Councils’ comprising the perimeter between Victoria’s metropolitan and rural areas.

Our Growing Population

Population Growth 2022-2032

Residents Born Overseas

	Growth Sub-region	Northern Sub-region	Southern Sub-region
Key Localities:	Beaconsfield, Officer, Pakenham	Emerald, Cockatoo, Gembrook, Upper Beaconsfield	Koo Wee Rup, Lang Lang, Nar Nar Goon, Garfield, Bunyip
2022 Population:	84,804	21,108	17,932
2032 Population:	130,885	22,048	22,672
2022-2032 Growth:	46,081 (54%)	940 (4.5%)	4,740 (26%)

\_\_\_\_\_

Cardinia Shire is an active community, with our residents participating in a wide range of sport and active recreation activities in parks and reserves, on trails, in leisure facilities, and throughout local communities. The Active Cardinia Strategy aims to *create more opportunities for more of our community to be active more of the time.*

## What is Sport and Active Recreation?

<sup>1</sup> Australian Government. 2021. Physical activity and exercise guidelines for all Australians.

<sup>2</sup> Victorian Government. 2017. Victorian Population Health Survey.

## How Active Should We Be?<sup>1</sup>

<b>Under 12 months</b>	<b>1-2 years</b>	<b>3-5 years</b>	<b>5-17 years</b>
Interactive floor-based play, and at least 30 minutes of tummy time for babies per day	At least 3 hours of energetic play per day.	At least 3 hours per day, with 1 hour being energetic play	At least 1 hour of moderate to vigorous activity involving mainly aerobic activities per day.
<b>18-64 years</b>			<b>65+ years</b>
Be active on most (preferably all) days, to a weekly total of 2.5-5 hours of moderate activity or 1.25-2.5 hours of vigorous activity or an equivalent combination of both.			At least 30 minutes of moderate activity on most (preferably all) days.

## How Active Are We?<sup>2</sup>

### Sufficiently Physically Active: Cardinia (Adult)

### Sufficiently Physically Active: Female (Adult)

### Sufficiently Physically Active: Male (Adult)

# Sport and Active Recreation in Cardinia Shire

Our community participates in a diverse range of sport and active recreation activities.

We have gathered data from a range of sources to provide insights into the needs associated with community participation in sport and active recreation, including:

- Participation data from State Sporting Associations for the 2021 season
- AusPlay participation survey data for Cardinia Shire collated between 2015-2021

Further modelling of demand across ten sports has also been undertaken using the ActiveXchange Sports Eye model to provide additional analysis of needs for sport and active recreation.

<sup>1</sup> 2021 participation data sourced from relevant State Sporting Associations. 2022

<sup>2</sup> Sport Australia. AusPlay Participation Dashboards. 2022. [www.clearinghouseforsport.gov.au/research/ausplay/results](http://www.clearinghouseforsport.gov.au/research/ausplay/results)

## 2021 Sport Participation in Cardinia Shire<sup>1</sup>

Sport	Age	Male	Female	Total
Australian Rules	Junior	3018	539	3557
	Senior	1036	123	1159
Basketball	Junior	1701	768	2469
	Senior	765	251	1016
Netball	Junior	62	1239	1301

	Senior	88	40	128
Rugby League	Junior	77	30	107
	Senior	46	18	64

## AusPlay Participation Rates (2015-2021)<sup>2</sup>

### Top Sport & Active Recreation Activities

### Top Sports Club Activities

# Growth Sub-region

The Growth Sub-region consists of Cardinia Shire’s fast growing urban residential suburbs, creating the need for the ongoing development of sport and active recreation facilities to cater for growth in population and participation.

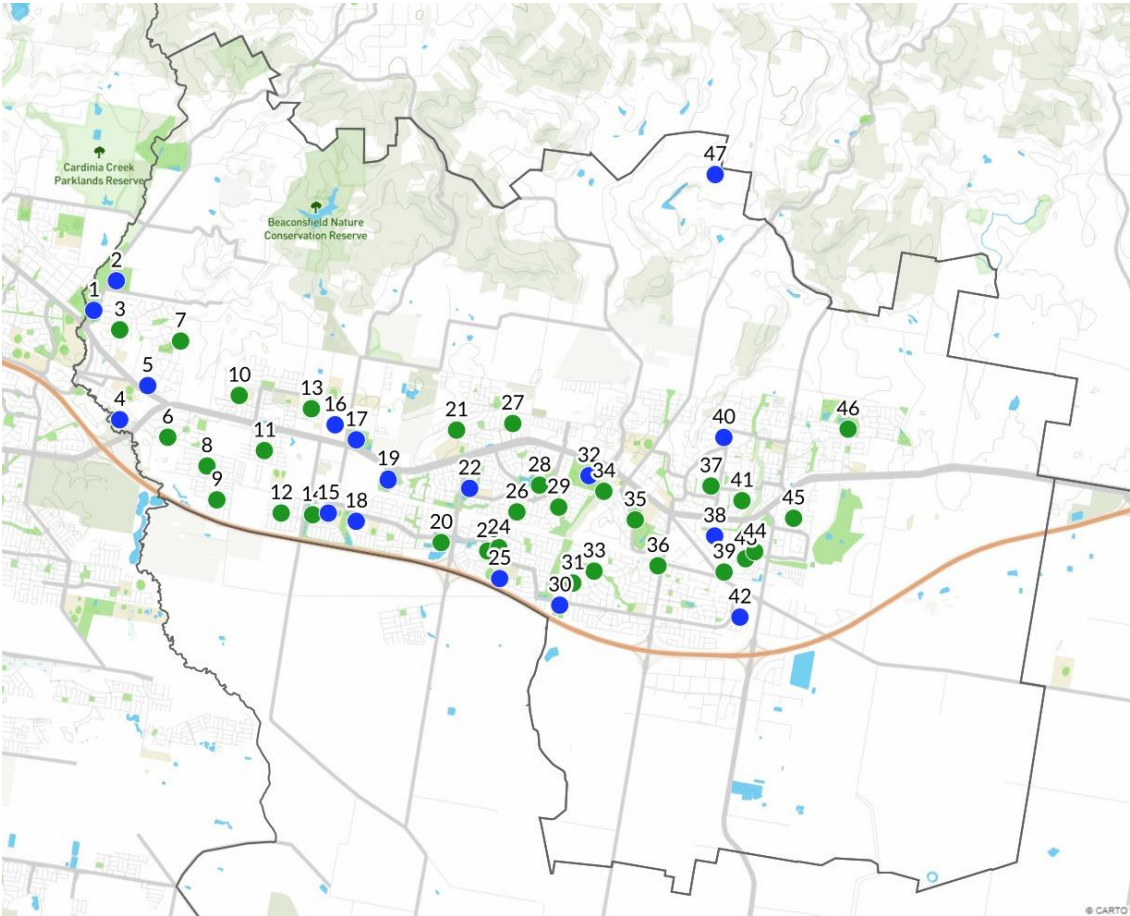

The Growth sub-region provides a diverse range of facilities within Council reserves, supporting participation at all levels of the hierarchy, including municipal-level facilities.

An inventory of sport and active recreation facility components is provided as an appendix.

Key Localities:	Beaconsfield, Officer, Pakenham
2022 Population:	84,804
2032 Population:	130,885
2022-2032 Growth:	46,081 (54%)
Residents born overseas	29%
Volunteering	9.9%

Legend

- Sport Reserve
- Open Space Park

# Northern Sub-region

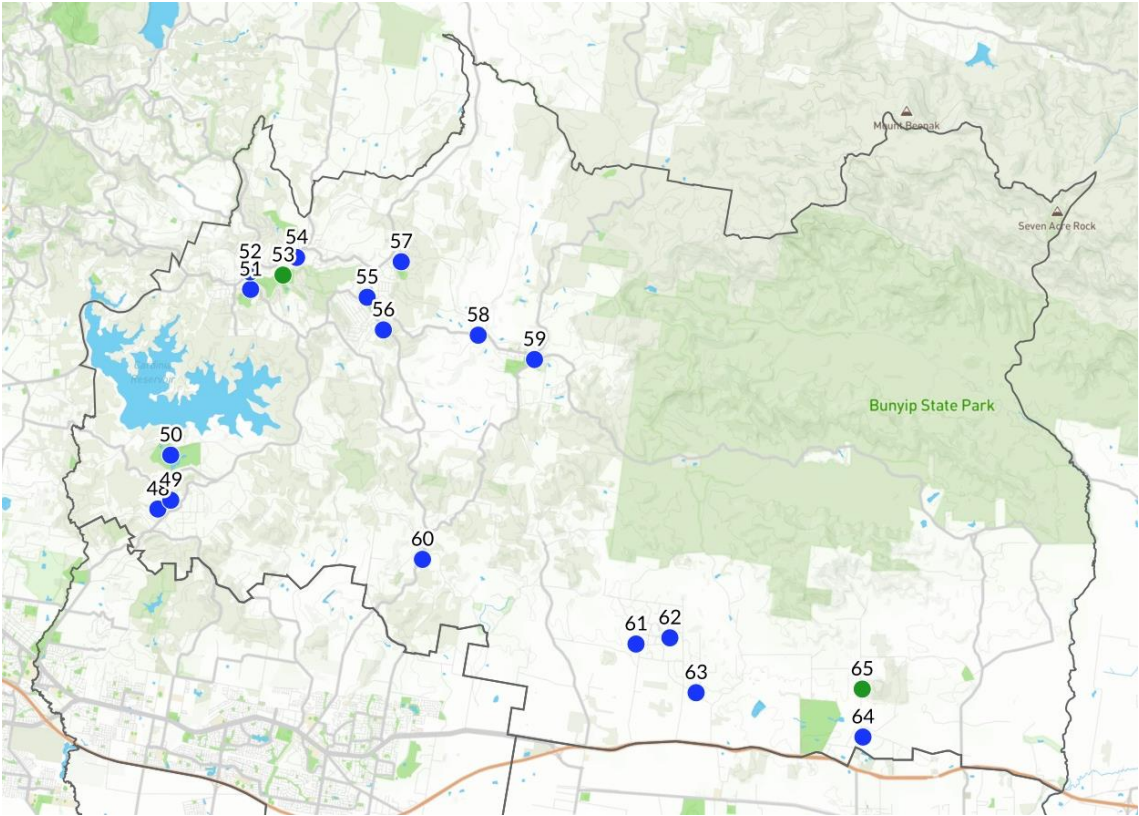

The Northern Sub-region has a current population of approximately 21,000, which is expected to grow by under 1,000 residents by 2032.

Based on the stable population across this non-metropolitan area north of the Princes Highway, the strategic focus is to ensure townships have access to facilities that support participation diversity.

It should be noted that residents of the Northern Sub-region may need to travel to access facilities that are provided at a municipal level, as these facilities will generally be provided within the Growth Sub-region based on higher population densities and demand for facilities.

The primary townships within the Northern Sub-region are Emerald (5,890 residents at the 2021 Census), Cockatoo (4,408 residents), Gembrook (2,559 residents), and Upper Beaconsfield (2,997 residents) which account for approximately 75% of the population of the sub-region.

Key Localities:	Emerald, Cockatoo, Gembrook, Upper Beaconsfield
2022 Population:	21,108
2032 Population:	22,048
2022-2032 Growth:	940 (4.5%)
Residents born overseas	13.6%
Volunteering	17%

# Southern Sub-region

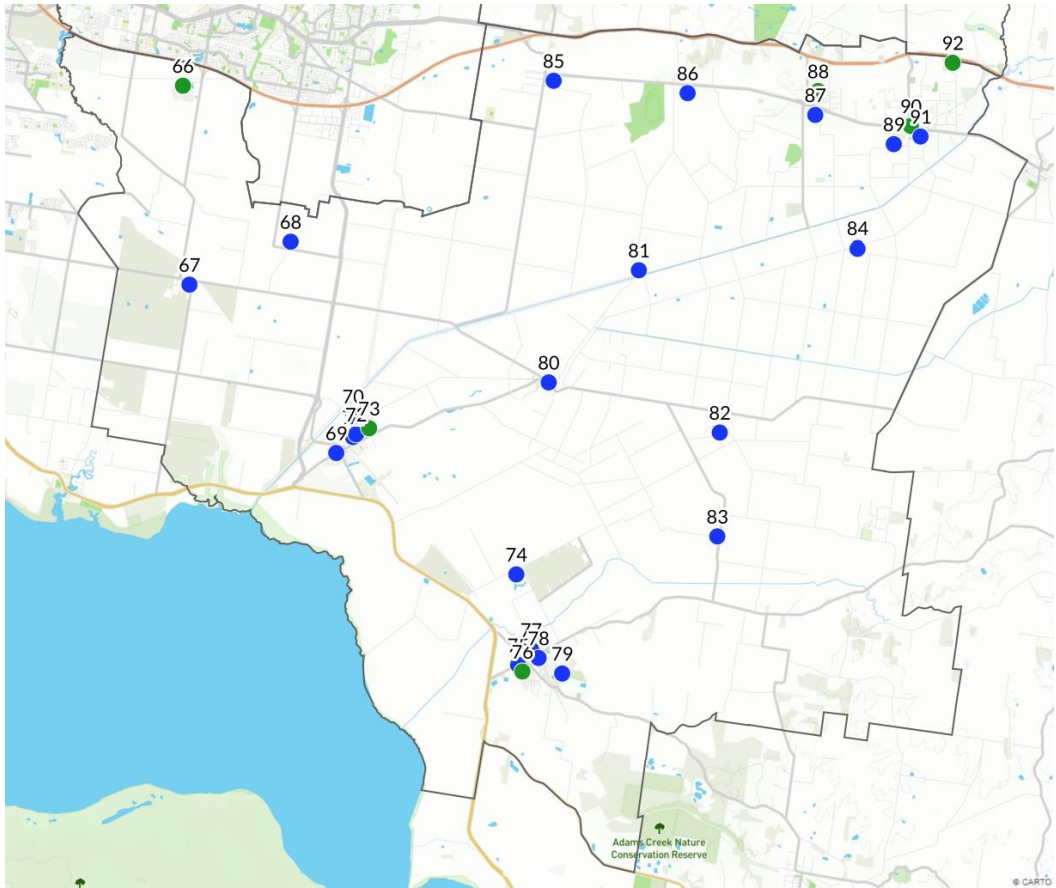

The Southern Sub-region has a current population of almost 18,000, which is expected to grow to over 22,000 by 2032 and 24,000 by 2041.

The townships of Koo Wee Rup and Lang Lang are located in the southern section of the sub-region close to Westernport Bay, with Nar Nar Goon, Garfield and Bunyip located along the southern side of the Princes Highway.

Similar to the Northern Sub-region, the strategic focus for the Southern Sub-region will be ensuring that communities have access to a diverse range of participation opportunities within a reasonable distance of travel.

Residents of the Southern Sub-region may have to travel to access municipal level facilities located in the Growth Sub-region. The townships within the Southern Sub-region are more evenly distributed than those in the Northern Sub-region, with the ability for facilities in one township to be able to complement those in another township being more limited.

Key Localities:	Koo Wee Rup, Lang Lang, Nar Nar Goon, Garfield, Bunyip
2022 Population:	17,932
2032 Population:	22,672
2022-2032 Growth:	4,740 (26%)
Residents born overseas	11.6%
Volunteering	13.4%

# Active Recreation & Active Living

**Active recreation has continued to emerge as a popular form of physical activity in our communities, with non-competitive, flexible opportunities to participate aligning with changing lifestyles.**

Activities such as walking, running, cycling, swimming and yoga are among the most popular forms of physical activity. Informal use of sporting facilities outside organised sport competition and training has also increased in popularity.

In addition to active recreation, our community is encouraged to consider how they incorporate activity into their everyday lives. Walking or cycling to the local shops or school instead of driving, gardening, playing with children and other incidental activity all contribute to our health and well-being.

Cardinia Shire provides a range of opportunities for active recreation in parks and reserves, including paths and trails, skate parks, BMX tracks, outdoor gyms, playing fields and swimming pools.

Cardinia Shire will continue to create new opportunities for active recreation, through facility development, participation programs and initiatives that encourage flexible use of Council parks and reserves.

## **Our approach to active recreation:**

- Embed opportunities for active recreation within the planning and design of all parks and reserves
- Adopt a place-based approach to planning for active recreation infrastructure, ensuring that local communities can contribute to planning and design processes
- Deliver active recreation infrastructure that is intergenerational, flexible and accessible to all
- Incorporate 'unique attractor' facility components into active recreation nodes e.g. climbing walls, ninja warrior courses, skateable components
- Promote the use of sporting facilities for informal physical activity and social activity formats
- Implement active recreation infrastructure and initiatives through Council plans and strategies, including the Open Space Strategy, Pedestrian and Bicycle Strategy, and Skate and BMX Strategy
- Activate parks and reserves through targeted programs and initiatives, and promote the benefits of active recreation
- Consider the needs of participants of all ages, abilities and needs

# Sport for All

**Our sporting clubs and associations provide our community with opportunities to participate in competitions and programs, volunteer as officials and administrators, and connect socially.**

Sport plays an integral role in bringing our communities together and providing pathways for participation and talent development.

We want sport to be equally accessible to all residents of Cardinia Shire, with barriers to participation reduced and our facilities welcoming for everyone.

As Cardinia Shire continues to grow, additional sporting facilities will be developed to cater for community needs. Council will continue to monitor participation trends to ensure that our network of sporting facilities is aligned with demand.

We will provide a diversity of opportunities to participate in sport, with established sports supported to grow and new activities promoted to the community.

Our clubs and associations will be supported through development and training programs that increase their capability and capacity.

Demand for sport will continue to evolve as our community grows and we are planning to ensure that communities are equipped to provide new and exciting opportunities to participate.

## **Our approach to organised sport:**

- Adopt and implement facility provision benchmarks in planning for future sports facility needs, particularly within the Growth Sub-region
- Ensure access to core sporting facilities within townships across the Northern and Southern Sub-regions
- Prioritise the development of facilities that support participation by junior participants, women and girls, older adults, culturally diverse communities and people with a disability
- Track participation trends and assess demand for facilities to ensure future planning and facility development responds to community needs
- Develop sport-specific strategies to address facility provision and club sustainability opportunities and challenges
- Engage peak sporting bodies, government and industry stakeholders in planning, investment, development and activation of our sporting facilities
- Support our clubs and associations through training, resources, promotion and policies that prioritise sustainability and growth
- Invest responsibly in sporting infrastructure to ensure community outcomes are maximised

# Our Plans and Strategies

The Active Cardinia Strategy is part of Council's Strategic Framework, providing direction for Council services and allocation of resources.

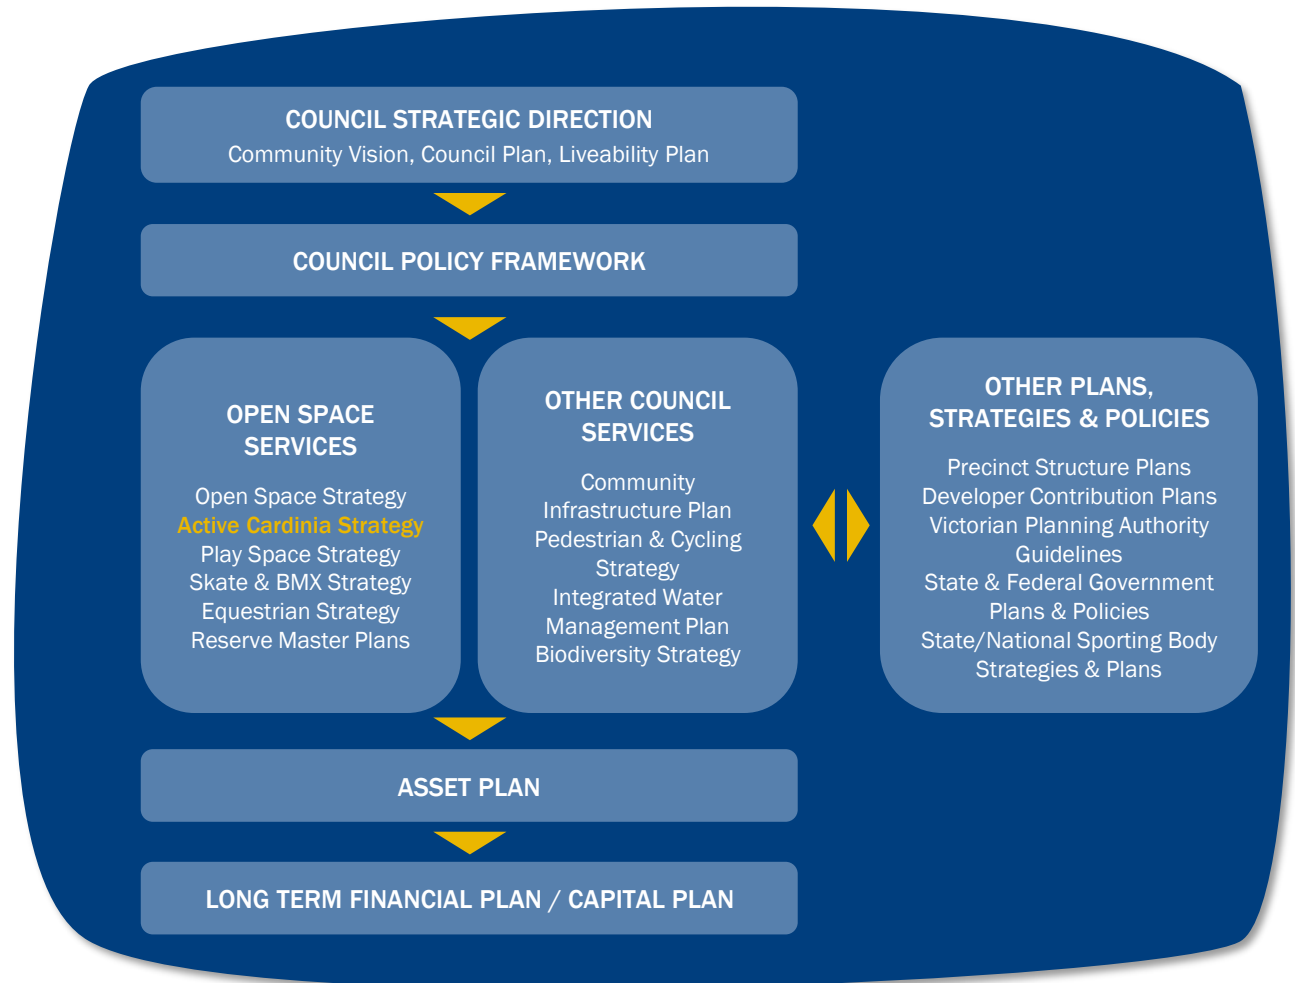

The Active Cardinia Strategy is guided by Council's corporate strategic direction and policy framework, and receives direction from the Cardinia Open Space Strategy.

The Active Cardinia Strategy will provide strategic direction for the implementation of existing sport and activity specific strategies, as well as recommending further strategy development and planning.

Council's Strategic Framework also guides asset management and financial planning to ensure investment and resource allocation is based on community needs.

The Active Cardinia Strategy is also impacted by other strategies and plans including:

- **Growth Area Planning** e.g. Precinct Structure Plans, Developer Contribution Plans, Victorian Planning Authority Guidelines
- **State and Federal Government Strategies** e.g. Active Victoria, Fair Access Policy Roadmap, Sport 2030, Sport Volunteering National Plan
- **State and National Sporting Body Strategies** e.g. State infrastructure Plans

# Community Engagement

Cardinia Shire Council engaged with key stakeholders and the community to gain insights into sport and active recreation participation, influences on behaviour, opportunities for improvement and future priorities.

Community Surveys	155
Sports Club Surveys	31
State Sporting Association Forum Attendees	16

The Community Survey and Sports Club Survey were open between 30 May 2022 and 11 July 2022.

The State Sporting Association Forum was held on 19 July 2022.

## What our community told us:

### What types of activities do we participate in?

A mix of sport and active recreation, with the 10 most popular survey responses being walking, swimming, cycling, tennis, gym/fitness, soccer, running, AFL, basketball and dancing

### What activities would we like to participate in, but can't?

The top activities that respondents would like to do but feel they can't, include swimming, cycling, soccer, tennis, walking, gym/fitness, outdoor gym and running. Swimming had twice as many responses (25) as the next highest response

### What are the main barriers to participation?

The main reasons that respondents weren't able to participate were distance to travel, the activity not being accessible, the activity not being affordable, perceived safety and lack of time

### Biggest opportunities for sports clubs?

Junior Participation, female participation, increasing membership, facility development and population growth were identified by clubs as their biggest opportunities to develop and grow in the future

### Biggest threats facing sports clubs?

Facility provision, facility condition, lack of members, affordability, lack of interest, volunteers and club finances were identified by clubs as the main threats to future club sustainability and growth

### What are the main goals for sports clubs in the next two years?

Sports clubs identified increasing membership, inclusion programs, financial recovery after COVID and improvements to club governance as their primary goals for the next two years

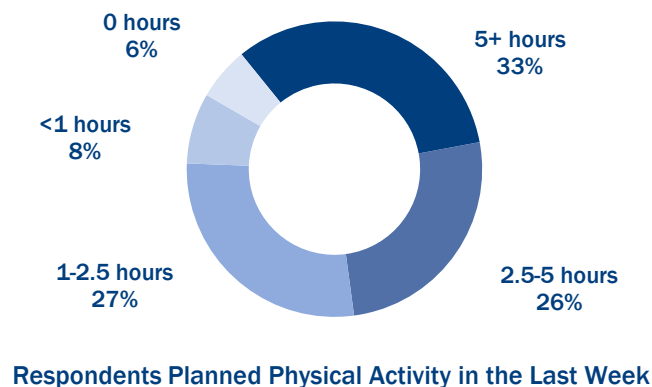

## Community Survey

Respondents  
active 4 or more  
times per week

Respondents  
active less than  
once per week

### Total Responses

# Our Opportunities & Challenges

Our communities face a range of opportunities and challenges relating to sport and active recreation every day.

Cardinia Shire Council plays a key role in supporting participation in sport and active recreation through the provision of facilities, planning and policy, programs and initiatives, and establishing partnerships.

The Active Cardinia Strategy aims to maximise opportunities and address challenges to participation and engagement.

As we grow over the next decade, new opportunities and challenges will continue to emerge. We will work with our communities, stakeholders and partners to implement initiatives that create new opportunities and reduce the barriers to participation, inclusion and engagement.

## Population Growth

Providing new facilities and establishing clubs to cater for our growing population will require ongoing investment and resources

## Diverse ways to Participate

Communities are seeking a diverse range of ways to be active, including more active recreation opportunities to complement organised sport

## A Balanced Network

Balancing the provision of facilities across Cardinia Shire to cater for all levels of sport, including elite competitions and events, traditional club-based sport, social sport and active recreation

## Removing Barriers

Identifying and reducing barriers to participation (e.g. cost, distance, accessibility, lack of time) to ensure communities have equal access to sport and active recreation

## Partnerships

Partnering with our community, land managers, governments and key stakeholders to grow participation in sport and active recreation

## Planning & Policy

Establishment of Council planning and policy direction that supports participation, diversity, inclusion and sustainable development

## Supporting our Clubs

Ensuring clubs are supported by adequate volunteer numbers, training opportunities for members, and policies that encourage sustainable growth

## Inclusion & Access

Encouraging all people to be active, including women and girls, young people, older adults, culturally diverse communities and people with a disability

# Active Cardinia Framework

---

# VISION

Our community is empowered to participate. We are active, engaged and connected. We are resilient and strong. Our physical and mental health is supported by a sustainable environment. We embrace diversity. We are an Active Cardinia.

# PRINCIPLES

SUSTAINABLE DEVELOPMENT	PLANNING FOR THE FUTURE	DIVERSITY OF OPPORTUNITY	EQUITABLE ACCESS	DELIVERY TOGETHER
				
Council will develop facilities in a sustainable and responsible way, ensuring that sport and active recreation assets are fit-for-purpose and effectively managed and maintained	Council will plan for the future sport and active recreation needs of the community and prioritise facility development and initiatives that create more opportunities for participation	The community will have access to a diverse range of sport and active recreation opportunities across Cardinia Shire	Council will actively reduce barriers to participation through the planning and implementation of facilities and initiatives that welcome and include everyone	Council will provide opportunities to participate in sport and active recreation through the establishment of partnerships with key government, sport, commercial and community stakeholders

# Our Strategic Priorities

## 1 PARTICIPATION

Increase participation in sport and active recreation, with a focus on reducing barriers for people that are less active

## 2 PLACES

Plan, develop and activate places that support communities to participate in sport and active recreation

## 3 PROMOTION

Promote opportunities to participate in sport and active recreation, and build awareness of the benefits of physical activity

## 4 PARTNERSHIPS

Work with our partners to invest in sport and active recreation infrastructure, deliver participation opportunities and develop the capability of our community

# Strategic Priority 1: Participation

## Increase participation in sport and active recreation, with a focus on reducing barriers for people that are less active

We will develop and support initiatives that increase opportunities for participation

We will encourage our residents to be physically active at all life stages

We will focus on removing barriers to participation for women and girls, young people, older adults, culturally diverse communities, people with a disability and people with lower physical activity levels

We will support sporting clubs and organisations to engage with the community

We will create new opportunities for active recreation and non-competitive physical activity

## Key Actions

- |            |   |             |   |
|------------|---|-------------|---|
| <b>1.1</b> | Establish Council policies and processes that allow for greater flexibility and multi-purpose use of facilities, including social sport and participation programs within existing facilities     | <b>1.6</b>  | Develop and implement policies that encourage clubs to promote participation opportunities to traditionally less active groups, including considering incentives through reserve bookings and allocations, and fees and charges |
| <b>1.2</b> | Promote access to sporting facilities for active recreation and non-competitive sport use   | <b>1.7</b>  | Develop and implement a ' <i>Fair Access Policy</i> ' to promote gender equitable access to sport and active recreation facilities, programs and funding  |
| <b>1.3</b> | Connect clubs and user groups to State Sporting Association programs and initiatives that support participation growth  | <b>1.8</b>  | Assist clubs and associations to introduce modified formats that cater for residents of all ages, abilities and needs   |
| <b>1.4</b> | Establish a 'Sustainable Sporting Clubs' position within Council to build club capability and capacity, and implement Council policies  | <b>1.9</b>  | Introduce new participation opportunities in Council leisure facilities, focusing on activities that engage less active residents to participate  |
| <b>1.5</b> | Support the delivery of participation programs that remove barriers to participation for women and girls, culturally diverse communities, young people, older adults and people with a disability | <b>1.10</b> | Work with health providers to connect residents to opportunities for physical activity in parks, reserves, leisure centres, sporting clubs and their local communities  |

# Strategic Priority 2: Places

## Plan, develop and activate places that support communities to participate in sport and active recreation

We will plan for the future sport and active recreation infrastructure needs of our community

We will develop places and spaces that cater to community demand and provide a diversity of participation opportunities and outcomes

We will support our community to maximise use of sport and active recreation of facilities, and encourage flexible use to create new opportunities to participate

We will manage and maintain our assets to ensure facilities are fit-for-purpose and sustainable

## Key Actions

- |            |  |             |  |
|------------|--|-------------|--|
| <b>2.1</b> | Develop and review master plans for parks and reserves that provide sport and active recreation infrastructure   | <b>2.7</b>  | Establish a network of district-level active recreation nodes, with a minimum of one multi-purpose active recreation node in each of the Growth, Northern and Southern Sub-regions |
| <b>2.2</b> | Develop sport-specific strategies where needed to address opportunities and challenges relating to facility provision and sustainability   | <b>2.8</b>  | Embed a place-based approach to planning for active recreation infrastructure in parks and reserves, and engage communities in planning and design processes                       |
| <b>2.3</b> | Develop an Aquatic and Leisure Strategy to establish the future aquatic needs of the municipality  | <b>2.9</b>  | Identify gaps in active open space and sporting facility provision and invest in infrastructure to meet current and future demands   |
| <b>2.4</b> | Adopt preferred facility provision benchmarks and facility standards and apply to future facility planning and development   | <b>2.10</b> | Ensure that asset management and maintenance processes are aligned and integrated to ensure best use of Council and community resources  |
| <b>2.5</b> | Identify opportunities to establish elite sports facilities capable of hosting regional and/or state level competitions and participation pathways, and partner with State Sporting Associations and Peak Bodies in their implementation | <b>2.11</b> | Support the ongoing planning and development of a connected active transport and trail network via the Cardinia Shire Pedestrian and Bicycle Strategy                              |
| <b>2.6</b> | Adopt a 'New Clubs in New Communities' approach to activating new facilities to minimise the creation of 'super clubs'   |             |  |

# Strategic Priority 3: Promotion

## Promote opportunities to participate in sport and active recreation, and build awareness of the benefits of physical activity

We will promote the participation opportunities created by our sporting clubs, associations and facility operators

We will connect our communities to new ways of being physically active in our parks, reserves and leisure facilities

We will communicate the health benefits of sport and active recreation to our communities

We will advocate for the importance of sport and active recreation in creating a healthy community

## Key Actions

- |            |  |             |   |
|------------|--|-------------|---|
| <b>3.1</b> | Develop and implement the 'ACTIVE CARDINIA' brand, with consistent promotion for sport and active recreation participation initiatives   | <b>3.6</b>  | Promote and support connections between sports clubs and schools to increase retention from participation programs into club membership and competition   |
| <b>3.2</b> | Promote information relating to organised sporting clubs and associations via Councils communication channels to encourage community participation and increased volunteer engagement  | <b>3.7</b>  | Work with facility management contractors and operators to drive participation and patronage at contractor-managed Council venues, with a focus on people that are traditionally less active  |
| <b>3.3</b> | Promote active recreation opportunities within Council reserves and facilities via Council promotional channels  | <b>3.8</b>  | Target communities with lower activity levels and/or poorer health status and encourage increased physical activity and movement  |
| <b>3.4</b> | Identify opportunities to support and promote Government and Peak Body initiatives that support increased participation, inclusion, and removal of barriers to physical activity (e.g. Active April, Get Active Kids Voucher Program, This Girl Can) | <b>3.9</b>  | Assist Peak Sporting Bodies to promote participation programs within Cardinia, with a focus on programs that target junior participants, women and girls, older adults, culturally diverse communities and people with a disability |
| <b>3.5</b> | Conduct a periodic community survey relating to sport and active recreation participation behaviours   | <b>3.10</b> | Promote Council's investment in sport and active recreation infrastructure and new participation opportunities  |

# Strategic Priority 4: Partnerships

**Work with our partners to invest in sport and active recreation infrastructure, deliver participation opportunities and develop the capability of our community**

We will partner with all levels of government, developers and our communities to invest in sport and active recreation infrastructure

We will engage and collaborate with our communities to deliver new participation opportunities

We will develop the capability and capacity of our sporting clubs, associations and community groups

We will partner with communities and land managers to develop, manage and maintain parks and reserves

## Key Actions

- |            |   |            |   |
|------------|---|------------|---|
| <b>4.1</b> | Develop a 'Cardinia Active Volunteer Framework' to establish initiatives to recruit, train, reward and recognise volunteers   | <b>4.6</b> | Establish partnerships with organisations that provide participation opportunities for target cohorts and the broader community, and promote participation opportunities via Council communication channels         |
| <b>4.2</b> | Partner with State Sporting Associations and Peak Bodies to support the implementation of participation initiatives via the club and association network  | <b>4.7</b> | Partner with non-Council land managers to ensure planning and development priorities align with Council planning and strategic direction for sport and active recreation  |
| <b>4.3</b> | Establish a 'Partner Program' to support clubs, sports organisations and operators to provide participation programs targeting diverse communities and those that are traditionally less active                   | <b>4.8</b> | Deliver club volunteer training and development initiatives to improve club capacity, capability and governance in collaboration with State Sporting Associations and Peak Bodies                                   |
| <b>4.4</b> | Provide support to deliver introductory participation programs that remove barriers to participation for women and girls, young people, culturally diverse communities, older adults and people with a disability | <b>4.9</b> | Support community-led management and maintenance models (Community Asset Committees, Committees of Management) and ensure management and maintenance practices align with industry best practice and Council policy |
| <b>4.5</b> | Establish partnerships with schools via joint-use agreements and invest in school-based infrastructure to enable use for community sport  |            |   |

# How Will 'We' Deliver The Strategy?

The collective 'we' referred to throughout the Active Cardinia Strategy extends beyond Council, with our community, clubs and associations, peak sports bodies, government, and industry stakeholders all making a vital contribution to our health and wellbeing through sport and active recreation.

A core principle of the Active Cardinia Strategy relates to 'delivering together', with partnerships and collaboration driving better outcomes for all stakeholders as 'we' strive to create an active community.

Cardinia Shire Council will lead the implementation and evaluation of the Active Cardinia Strategy and foster collaboration with our partners.

Council will continue to be the most significant sponsor and supporter of community sporting clubs through its commitment to the provision of sport and active recreation infrastructure, programs and initiatives.

## Who are 'We'?

### Our Community

Our community is engaged, diverse and active, seeking new opportunities to participate and ways to reduce barriers to participation

### Cardinia Shire Council

Lead the delivery of the Active Cardinia Strategy through direct delivery of projects and initiatives, developing partnerships with stakeholders and engaging with our community

### Clubs, Associations & Volunteers

Engage our communities to participate, connect and thrive in environments that are welcoming and supportive

### Peak Sporting Bodies

Provide leadership, development opportunities and participation initiatives to drive stronger clubs, associations, competitions and programs

### Government

Support communities to be more active through targeted investment, advocacy, policy and partnerships at local, state and national levels

### Property Developers

Develop sport and active recreation infrastructure in new communities in partnership with Council

### Industry Stakeholders & Service Providers

Advocate for and deliver initiatives that create diverse opportunities to participate in sport and active recreation

### Health and Wellbeing Providers

Promote the importance of physical activity and create partnerships to engage our community in sport and active recreation

# How Will We Measure Our Progress?

The Active Cardinia Strategy represents a commitment to improving the lives of our residents through sport and active recreation. We will measure our progress by tracking key measures relating to participation, engagement and strategy implementation.

Evaluating the progress of the Active Cardinia Strategy over time will require the ongoing collection and collation of data, engagement with our community and analysis of trends.

We will work with our community, key stakeholders and partners to measure and evaluate our progress and celebrate our successes.

Council will monitor the ongoing implementation of the Active Cardinia Strategy and undertake a formal evaluation of progress after five years.

## Key Measures of Progress

### PILLAR 1: PARTICIPATION

More people are physically active, including higher levels of activity among target cohorts and people that are traditionally less active

### PILLAR2: PLACES

Our community is engaged in planning for all new sport and active recreation infrastructure

### PILLAR 3: PROMOTION

The promotion of opportunities to participate is increased and our community is aware of the benefits of participation in sport and active recreation

### PILLAR 4: PARTNERSHIPS

All partners contribute to the success of the Active Cardinia Strategy

1. Facility and demand planning models
  - a) Establishing demand
  - b) Our approach to planning for an Active Cardinia
2. Facility inventory

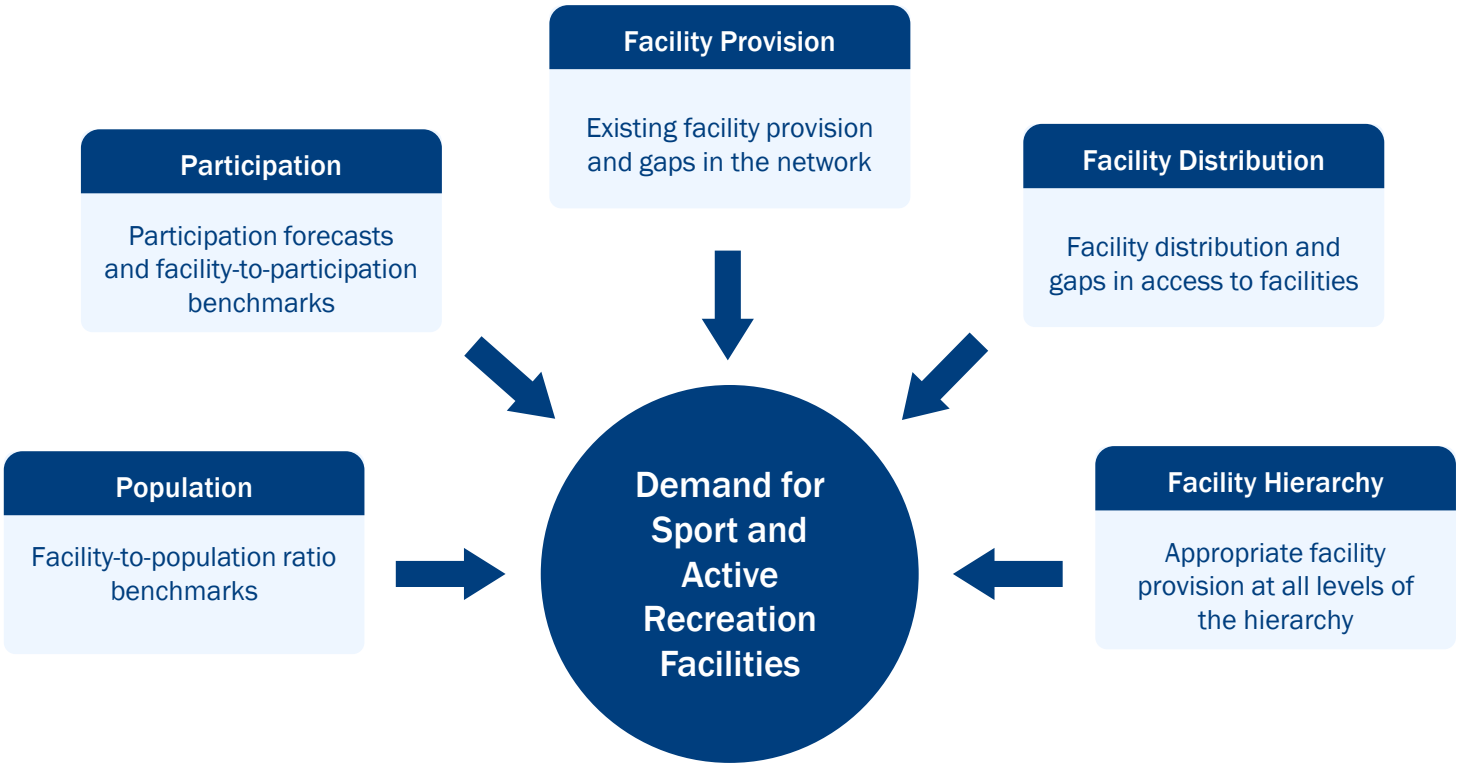

# Appendix 1A: Establishing Demand

Planning for the future sport and active recreation demands of Cardinia Shire is vital to ensuring that participation opportunities are accessible across the municipality.

To establish the demand for sport and active recreation facilities, a range of measures have been used and a varied approach applied across Cardinia Shire's network of sport and active recreation facilities.

The model for establishing demand for facilities varies across Cardinia Shire, particularly in relation to the difference in population between the Growth Sub-region and Northern/Southern Sub-regions.

The adjacent facility provision framework has been used to assess the sport and active recreation needs of Cardinia Shire to 2032 and beyond.

# Appendix 1B: Our Approach to Planning for an Active Cardinia

Cardinia Shire consists of a mix of highly populated urban communities, townships and rural areas, each with unique opportunities to relating to participation in sport and active recreation.

Our approach to planning for an active Cardinia Shire considers the unique needs of communities and the characteristics that influence sport and active recreation needs.

## Appendix 2: Facility Inventory: Growth Sub-region

No.	Reserve	Suburb	Facilities
1	Beaconsfield Recreation Reserve	Beaconsfield	1x AFL/cricket oval, 9x tennis courts
2	Holm Park Recreation Reserve	Beaconsfield	3x ovals (2 AFL, 2 cricket), 4x netball courts, 1x skate park, 1x BMX track
3	Kath Roberts Reserve	Beaconsfield	1x BMX track, 1x basketball half-court
4	Beaconsfield Pistol Club	Beaconsfield	1x pistol club
5	O'Neil Rd Recreation Reserve	Beaconsfield	1x AFL/cricket oval, 1x basketball half-court
6	Tantallon Boulevard Detention Basin Reserve	Beaconsfield	1x basketball half-court
7	Beaconhill Grange Park	Beaconsfield	1x basketball half-court
8	Dodson Road Reserve	Officer	1x fun goals
9	Lincoln Avenue Reserve	Officer	1x basketball half-court
